

QUIVIRA

VINEYARDS
Intentional wines, naturally.

OUR PORTFOLIO

Quivira Vineyards is a leading producer of Dry Creek Valley Zinfandel, Sauvignon Blanc and Rhône variety wines, built upon intentional winegrowing and a thoughtful commitment to Biodynamic and organic farming. The winemaking style emphasizes balance and transparency of terroir, utilizing the principles of Biodynamic farming and thoughtful low-input winemaking, to produce wines that proudly showcase the varieties and origins. Quivira's wine growing is driven by the seamless vision of quality shared between winemaker Hugh Chappelle and viticulturist Ned Horton. Together, they have integrated the vineyard and winery where farming practices are optimally aligned with the desired characteristics of the finished wine.
